

Interested in learning how to keep your septic system functioning properly?

Attend the Introduction to Septic Systems Course for Free!

This course provides a basic understanding of the operational and maintenance activities of a conventional septic system, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, how to inspect, and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pumpout a tank and what can or cannot go down the drain.

Course Information:

THURSDAY, JANUARY 30, 2020. 10:00 AM - 12:00 PM

Guadalupe County AgriLife Extension Office
210 East Live Oak
Seguin, TX 78155

Please RSVP to: (210) 277-0292 ext. 205 or
(979) 458-4185

Cost: Free!

Why Should You Attend?

Septic systems are not flush and forget systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment.

*This course is not the same as the 6-hour aerobic maintenance class and will not certify homeowners to maintain their aerobic treatment unit.
